Patient Dissent from secondary use of patient identifiable data

Dear Doctor

I am writing to give notice that I **refuse consent** for my identifiable information to be transferred from your practice systems for any purpose other than my medical care.

As you are probably aware, on the direction of NHS England you can now be *required* to transfer patient-identifiable data from the electronic medical records that you hold to the Health and Social Care Information Centre (HSCIC), via the General Practice Extraction Service (GPES) or other means.

Please take whatever steps necessary to ensure my confidential personal information is not uploaded and record my dissent by whatever means possible.

This includes adding the 'Dissent from secondary use of GP patient identifiable data' code (Read v2: 9Nu0 or CVT3: XaZ89) to my record as well as the 'Dissent from disclosure of personal confidential data by Health and Social Care Information Centre' code (Read v2: 9Nu4 or CTV3: XaaVL).

I am aware of the implications of this request, understand that it will not affect the care I receive and will notify you should I change my mind.

Yours sincerely,
